READING STRATEGIES

Making Predictions

Predicting makes it easier to understand articles.

Before you read the article, read the title and subtitles, and look at the picture.

What do you think the article will be about?

TECHNOLOGY IN EVERYDAY LIFE

- PRODUCTIVITY
- COMMUNICATION
- HEALTH
- EDUCATION

READING STRATEGIES

Skimming

Skimming involves reading quickly to get the main idea of a text. Reading topic sentences (usually the first sentence of a paragraph) can be an effective way of understanding the main idea of the text.

Skim through the first paragraph of the article called Technology in Everyday Life. What is the main idea of the text?

TECHNOLOGY IN EVERYDAY LIFE

Modern technology has changed our lives in countless ways – revolutionizing how we work, live, and play. As recently as the 1990s, televisions were the height of technology in many American homes. According to the Census Bureau, a mere 15% of residences had a personal computer in 1989. By 2011, that number had climbed to 75%. Modern offices would be unrecognizable to workers of the past, due to the proliferation of emails, video conferencing, smartphones, and laptops.

What is the main idea of the text?

Students, write your response!
